Provider Profile

Information provided by the provider describing their agency:

Alternative Services -Connecticut, Inc. (ASI-CT) provides services to children and adults with developmental disabilities and/or serious mental illness. Our areas of expertise include behaviorally and/or medically challenged individuals as well as dual diagnosed individuals. We offer various supports including 24-hour residential support, individualized home support as well as employment and individual day supports. Individualized home supports include in-home family supports, in-home respite, as well as supporting individuals to live in their own apartments/homes. Most of the people we serve have difficulty with the demands of daily living. Supported individuals are taught a variety of skills necessary for increased personal independence, growth, and dignity. Basic self-care skills, social skills, domestic skills, responsibility and self-direction are a few of the possible focus areas. Individuals have various opportunities to participate in community activities, develop friendships, and visit friends and families. The individual and family are encouraged to participate in the development of the individual's support services by participating in the development of their individual service plan and attending and participating in plan reviews
